Recent theoretical and empirical work characterizes attention as a limited resource that decision-makers strategically allocate. There has been less research on the dynamic interdependence of attention: how paying attention now may affect performance later. In this paper, we exploit high-frequency

The question of the origins of baseball has been the subject of debate and controversy for more than a century. Baseball and the other modern bat, ball, and running games — stoolball, cricket and rounders — were developed from folk games in early Britain, Ireland, and Continental Europe (such as France and Germany). Early forms of baseball had a number of names, including "base ball," "goal
